

Trash Day Guidelines

Please enter the park at the west driveway and exit out the east driveway

Please do not block any driveways and keep traffic moving. There may be long lines. Be prepared to wait. We appreciate your patience.

Please be prepared to show ID showing that you live in Hambden Township

Please stay in your vehicle. Observe our signals and be aware of moving equipment

Hambden Township reserves the right to refuse the load if the guidelines below are not met.

ALL mattresses or furniture must be wrapped in plastic to protect our workers

No liquid paint or other hazardous chemicals (household or otherwise)

Carpet or lumber should be in lengths no longer than 6 feet.

No household trash

No fluorescent light bulbs

Lawnmowers must have tires removed

No items with a title (boats, trailers etc)

Spring Trash Day ONLY: Scrap tire collection – only sizes LT or smaller that are not mounted on rims. Limit of eight (8) per household. These are rules for the grant that we receive to do the collection.

Please load your items so that they can be quickly and safely unloaded by our volunteers.

It is helpful if you keep metal items separate from the rest of your items as we recycle metal items to help offset the cost of Trash Day.
