Fall Road Department Update

As we move into fall, the Road Department will be focusing on ditching and culvert repairs throughout the township.

We have several culvert projects scheduled for this fall, including work on Marlin Road, Trish Lane, and Grantham Lane. These roads are scheduled to be resurfaced in 2027.

Per township guidelines, the asphalt drives will be receiving an asphalt overlay; concrete drives may require removal of the concrete within the road right of way to provide for a safe transition to the raised road surface. An asphalt berm will replace the concrete within the road right-of-way.

The township does not provide concrete berm replacement. Gravel drives will include an asphalt apron (all within the road right-of-way).

Mailboxes may be adjusted unless they are oversized (greater than 4x4 posts- as specified by USPS) in which case they will not be adjusted due to liability issues. More details will be provided in the spring newsletter.

If you are in need of ditch dirt, please contact the Road Department to be added to the list. We will do our best to accommodate requests as work progresses.

Winter Reminders

With winter just around the corner, we would also like to remind everyone of a few important safety measures:

When snow begins to fall, please keep trash cans out of the roadway so our plow crews can safely clear the streets.

Please do not push snow into the roadway when cleaning your driveway. Snow pushed into the road creates a safety hazard for motorists and can cause damage to township plow trucks.

If there is more than 2 inches of snow, please do not park on the road. This allows our crews to safely and efficiently clear the streets.

Please be patient with us. During times of heavy and prolonged snowfall and heavy drifting, snow may accumulate on streets before our crew can return between plowing cycles. Our crews work long hours during snowstorms and do their best to provide for safe roadways.

We appreciate everyone's cooperation and help in keeping our roads safe and accessible throughout the winter season.

Thank you to all of our residents for your continued support and cooperation!

— Township Road Department
